

CO-OCCURRING ENHANCED 3.1

Each resident receives a comprehensive assessment and is referred to our psychiatrists for additional care if indicated. Research demonstrates that treating addiction and mental health issues separately does not support favorable outcomes. Our treatment includes traditional and holistic therapies that will allow each recoveree to develop skills to manage their unique needs and challenges.

DRACUT HOUSE

Co-Occurring Enhanced Residential Rehabilitation Services for Men

ADMISSION CRITERIA

- Age 18 years or older
- Resident of Massachusetts
- Primary Substance Use Diagnosis
- Priority for admission includes: Hispanic, African American, LGBTQ, other minority, homeless, involved with the criminal justice system, with disabilities or living with HIV/AIDS
- Demonstrate a commitment to sobriety
- Demonstrate an understanding that participation includes the development of a treatment plan
- Be willing to complete an eligibility assessment
- Applicants on Medication Assisted Treatment or other medications will not be denied treatment

PERSONALIZED TREATMENT

Work with your case manager to identify meaningful goals and develop a plan to achieve them.

SMALLER GROUPS

Smaller therapeutic, substance use and psycho-educational groups ensure you get the support needed.

TRAUMA-INFORMED APPROACH

Delivered in a manner that promotes healing and avoids re-traumatization

COMMUNITY INTEGRATION

Collaborate with external services to prepare for independent, sober living after discharge.
